

## QUALITY POLICY

### Vision

Radics LLC is a leading provider of advanced digital instrumentation and control systems and services for the nuclear industry in the global market. Radics LLC commits to achieve the highest safety and quality level in the overall operation scope.

### Mission

Our Mission is to develop digital instrumentation and control solutions that conform to top-tier standards, provide high reliability for the customer, and support the safe operation of nuclear facilities.

### Values

Core Radics LLC values:

- Responsive to customer's needs and following regulatory requirements.
- Adapting to evolving technologies and market demands.
- Dedicated to continuous improvement.
- Integrated in the global nuclear community by exchanging experience.
- Creating values for our customers in the process of day-to-day operations.
- Supporting each other to achieve the strategic objectives of the company.

### Leadership and Commitment

We, top management of Radics LLC, demonstrate leadership and commitment with respect to customers and the company Quality Assurance Program by:

- Providing uncompromising safety and high quality of developed products. We assure the highest level of safety and quality in all aspects of operations adhering to the requirements of the applicable standards and regulations relating to the nuclear industry as well as customer requirements.
- Integrating the Quality Assurance Program into the company organizational structure in compliance with the requirements of 10 CFR 50 Appendix B, ASME NQA-1-2008 and NQA-1a-2009, CSA N299.1-2016 and ISO 9001:2015.
- Striving for open and trusting communication with our customers to improve our products and services and to reach a high level of customers satisfaction.

- Taking accountability for the effective maintenance of the company Quality Assurance Program and striving for its continuous improvement to ensure alignment with the purpose and context of the company and to support its strategic direction.
- Facilitating the improving quality of the provided products and services ensuring their relevance and competitiveness.
- Using the risks and opportunities management process.
- Providing the company processes with necessary resources including financial, technical, infrastructure, and personnel to achieve quality objectives.
- Engaging the company employees to contribute to the effectiveness of the Quality Assurance Program.
- Creating the conditions for the professional growth of company employees.
- Promoting adherence to the safety culture by the company employees.

This Quality Policy is established based on the company context and implemented in all aspects of the company Quality Assurance Program processes.

All Radics LLC employees shall be aware of the provisions of this Quality Policy and apply it within the company operations to achieve defined quality objectives.
